MACHINE DESIGN

1961 ANNUAL INDEX

Volume 33 — January to December

Including 26 regular issues of MACHINE DESIGN plus *The Seals Book, The Bearings Book, The Ferrous Metals Book,* and *The Electric Motor Book.* Only articles and editorial items one-half page or larger are indexed.

AUTHOR INDEX

A

Adler, Rodney R.—"Eli Whitney's Uniformity System," Jan. 5, p. 106
Arthur, Merwyn E. and Lee E. Dunbar—"Quadratics-Cubics-Quartics," Sept. 14, p. 193
Axtheim, R. E.—"Definite and Special-Purpose Motors—Definite-Purpose Motors," *Electric Motor Book,* p. 119

B

Baker, James K.—"Vinyl-Metal Laminates," April 27, p. 102
Baniak, E. A. and G. A. Kohl—"Fatigue Life of Ball Bearings," June 8, p. 190
Barnes, Samuel E.
"Bearing Loads," *Bearings Book,* p. 13
"Bearing Mountings," *Bearings Book,* p. 62
Barnwell, J. H.—"The Double-Eccentric Speed Reducer," Aug. 17, p. 135
Barron, Randall F.—"Superinsulations," March 2, p. 116
Baxter, Meriwether L. Jr.—"High-Reduction Hypoids," April 27, p. 142
Belanger, Harold
"Selection of Bearing Type," *Bearings Book,* p. 31
"Ball-Bearing Characteristics," *Bearings Book,* p. 40
"Roller-Bearing Characteristics," *Bearings Book,* p. 47
"Selection of Bearing Size," *Bearings Book,* p. 57
Benson, Arne—"Reverted Gear Train," June 22, p. 147
Blizard, J. R.—"Glasses and Ceramics," July 6, p. 166
Bockhoff, Frank J.—"Large Plastic Parts," Sept. 14, p. 190
Booser, E. R.—"Bearing Materials and Properties," *Bearings Book,* p. 95
Borries, Fred—"Finishing of Plastic Parts," March 2, p. 124
Bradbury, B. W.—"Temperature Rise and Insulation," *Electric Motor Book,* p. 31
Brickman, Arthur D.—"Conical-Disc Spring," March 16, p. 141

Brooke, E. Raymond—"Project Planning," August 3, p. 76
Brooks, K. A.—"Statistical Dimensioning Program," Sept. 14, p. 140
Bucci, George A.—"Inverted Slider-Crank Mechanisms," March 16, p. 150
Buchman, Donald J. and Frank H. Smith—"Hole-Position Tolerances," Jan. 5, p. 153
Buxton, V. S.—"Driven Machine Mechanics," *Electric Motor Book*, p. 26

C

Cade, J. Weldon—"Design Considerations for Small Housings," May 25, p. 132
Campbell, John
"Fractional Horsepower Motors,
Part 1: Electrical Considerations," May 11, p. 196
Part 2: Mechanical Considerations," May 25, p. 123
"Fractional-Horsepower Motors," *Electric Motor Book*, p. 54
Carenbauer, Wm. F.—"Design of Cast Bearings," *Bearings Book*, p. 104
Carr, John T.—"Single-Span Rigid Frames," June 8, p. 185
Carrell, Ted, John A. Jordan, and Roy Young—"Seals for Hard Vacuums," May 25, p. 134
Cawley, W. E.—"The Prestressed Shaft," Feb. 2, p. 99
Chandler, Roy D.
"Helical Spring Design," March 30, p. 131
"Compression-Spring Design," Oct. 26, p. 138
Coleman, Wells—"Designing Bevel Gears," Nov. 23, p. 127
Condon, W. T.—"Universal Joints," Nov. 23, p. 172
Connors, C. J., C. F. DeVarney, and J. P. Lynch, "Copper-Alloy Extrusions," Sept. 28, p. 156
Covner, Bernard J.—"Measuring the Engineer," May 25, p. 112
Crankshaw, E.—"Design of Strip-Type Bearings," *Bearings Book*, p. 112
Crum, Ralph G.
"Fatigue in Metal Joints,
Part 1: Mechanical Joints," March 30, p. 108
Part 2: Welded Joints," April 13, p. 176
Cummings, H. N., F. B. Stulen, and W. C. Schulte
"Preventing Fatigue Failures,
Part 1: Basic Factors," April 27, p. 116
Part 2: Geometric Stress Concentrations," May 11, p. 191
Part 3: Heat Treatment and Surface Hardening," May 25, p. 146
Part 4: Surface Treatment and Environment," June 8, p. 165
Part 5: Calculating Fatigue Strength," June 22, p. 159
Part 6: Biaxial Fatigue Stresses," July 6, p. 154
Czerniak, E.—"Neutral Axis of an Unsymmetrical Beam," Nov. 23, p. 126

D

Daniels, C. M. and R. E. Fenton — "Internally Linked Bellows Joints," Sept. 14, p. 187
Davis, J. F.—"Dc Integral-Horsepower Motors," *Electric Motor Book*, p. 100
De Hart, A. O.—"Basic Bearing Types," *Bearings Book*, p. 4
DeVarney, C. F., J. P. Lynch, and C. J. Connors, "Copper-Alloy Extrusions," Sept. 28, p. 156
Diamond, Gerald X. and Walter Egger—"Fillet Rolling," Jan. 5, p. 112
Donlevy, Al and Jack K. Y. Hum—"Strength of Refractory Metals," May 11, p. 244
Dow, James—"Columns Loaded Between Supports," Feb. 16, p. 167
Duguid, H. Alan — "Thin-Race Bearings," March 2, p. 87
Dunbar, Lee E. and Merwyn E. Arthur—"Quadratics-Cubics-Quartics," Sept. 14, p. 193
Dunham, Bruce M.—"Lubricants—Oils and Greases," *Bearings Book*, p. 21
Dunkle, Heber H.—"Metallic Gaskets—General Types," *Seals Book*, p. 103

E

Easton, L. H. and A. L. Sebok—"Universal Motors and Motor Parts," *Electric Motor Book*, p. 68
Egger, Walter and Gerald X. Diamond—"Fillet Rolling," Jan. 5, p. 112
Eismann, William—"Water-Glycol Hydraulic Fluids," Nov. 9, p. 193
Elmer, Edwin and Richard J. Kavanaugh—"Timing Motors," *Electric Motor Book*, p. 138
Esty, F. B.—"Internal-Combustion Engines," March 30, p. 134
Evans, David C.—"Learning to Live with a Computer," Oct. 26, p. 120
Everett, Malcolm H. and Howard G. Gillette
"Molded Packings—Squeeze Type," *Seals Book*, p. 68
"Static O-Ring Seals," *Seals Book*, p. 100

F

Felstein, Milton—"Self-Checking Interpolation," April 27, p. 151
Feng, R.—"Cylindrical Pressure Vessels," Dec. 21, p. 151
Fenton, R. E. and C. M. Daniels—"Internally Linked Bellows Joints," Sept. 14, p. 187
Fitzgerald, A. J. and Rowen Glie—"Technical Specifications," July 6, p. 112
Forrester, J. R. Jr., T. H. Risk, and R. P. Schmuckal—"Thermoplastics," Oct. 12, p. 207
Fox, George H. Jr. and Hugh H. Muller—"Chemically Milled Structures," April 27, p. 126
Frazier, E. C. and Earl M. Smoley—"Nonmetallic Gaskets—Materials," *Seals Book*, p. 90
Froehlich, R. C. and E. E. Leird
"Precision Snap-Action Switches,
Part 1, March 30, p. 116
Part 2, April 13, p. 165
Frohrib, Darrell A.
"Flexible-Beam Suspensions,
Part 1: The problem . . . design approach . . . resonant-frequency charts," July 6, p. 134
Part 2: Precalculated Coefficients," July 20, p. 162
Fuchsluger, John H. and Glenn F. Hyde—"Materials for High-Temperature Seals," Dec. 21, p. 154

G

Garner, Russell H.—"Inserts in Light-Metal Castings," August 3, p. 97
Gastineau, R. L.—"Metallic Gaskets—Metallic O-Ring Type," *Seals Book*, p. 113
Gensheimer, J. R.—"Flexible Couplings," Sept. 14, p. 154
Gillette, Howard G. and Malcolm H. Everett
"Molded Packings—Squeeze Type," *Seals Book*, p. 68
"Static O-Ring Seals," *Seals Book*, p. 100
Glie, Rowen and A. J. Fitzgerald—"Technical Specifications," July 6, p. 112
Glover, John H.—"Planetary Gear Train Ratios," August 3, p. 125
Glover, John H.—"Nonstandard Crossed Helical Gears," June 8, p. 156
Glyman, J., R. Gorcey, and E. Green—"Explosive Forming," April 13, p. 188
Gonzalez, J. I.—"Air-Gap Heat Transfer," Feb. 2, p. 131
Goodman, Thomas P.
"Mechanism Design,
Part 4: Inversion," Jan. 5, p. 126
Gorcey, Richard—"Filament-Wound Pressure Vessels," June 22, p. 178
Gorcey, R., J. Glyman, and E. Green—"Explosive Forming," April 13, p. 188
Gray, Albert Woodruff
"Commercial Success of Patents," June 8, p. 164
"File-Wrapper Estoppel," Sept. 14, p. 184
"Double Patenting," Nov. 9, p. 162
Green, E., R. Gorcey, and J. Glyman—"Explosive Forming," April 13, p. 188
Gregory, L. P.—"Multispeed Motors," *Electric Motor Book*, p. 105
Griffel, William—"Critical Speed of Shafts," Oct. 12, p. 203
Gwinn, James T. Jr.—"Impact Loads," August 3, p. 105

H

Hansen, J. T.
"Dynamic Properties of Hydraulic Motors," Jan. 19, p. 132
"How to Use Servo Systems for Velocity Control," Dec. 21, p. 112
Hansen, John V. E.—"R & D Contract," Oct. 12, p. 164
Harker, R. J. and M. J. Rabins—"Molded Friction Materials," Jan. 5, p. 156
Harris, Edwin A. and Walter E. Levine—"Audible Signals," Nov. 9, p. 166
Hatton, Roger E.—"Synthetic Hydraulic Fluids," Oct. 26, p. 156
Hebeler, Charles B.—"Cycloidal-Motion Cam Systems," Feb. 2, p. 102
Henke, Russ—"High-Pressure Hydraulics," June 22, p. 140
Henney, A. S.—"Curved Flanges in Compression," Jan. 19, p. 163
Henson, J. H.—"A Twin-Head Capstan," Jan. 5, p. 147
Hess, E. F.—"High-Strength Structural Adhesives," Jan. 5, p. 149
Hilsher, J. E.—"Wire-Rope Assemblies," August 3, p. 88
Hirch, Richard A.—"Gas-Operated Mechanisms," July 20, p. 171
Homitch, Joseph M.
"Introduction," *Electric Motor Book*, p. 4
"Synchronous Motors," *Electric Motor Book*, p. 15
Hopkins, R. Bruce—"Stepped Shafts and Nonuniform Beams," July 6, p. 159
Huff, Harry A., Thomas C. McGeary, Roland J. Westerholm, and Robert L. Wolff—"Flame-Sprayed Coatings," Aug. 31, p. 82
Hughes, Raleigh C. and Elmer A. Roller—"Torque Motors," *Electric Motor Book*, p. 129
Hum, Jack K. Y. and Al Donlevy—"Strength of Refractory Metals," May 11, p. 244
Hutta, F. J.—"Laminated-Plastic and Vulcanized-Fiber Parts," May 11, p. 171
Hyde, Glenn F. and John H. Fuchsluger—"Materials for High-Temperature Seals," Dec. 21, p. 154

I

Isenbarger, Robert O.—"Exclusion Devices," *Seals Book*, p. 15

J

Jensen, Preben W.—"Four-Bar Mechanisms," June 22, p. 173
Johnson, E. T.—"Design of Powder-Metal Bearings," *Bearing Book*, p.119
Johnson, R. E.—"Selecting Lightweight Metals," Sept. 28, p. 168
Jordan, John A., Ted Carrell, and Roy Young—"Seals for Hard Vacuums," May 25, p. 134
Judd, John E.—"The Optical Wedge," March 16, p. 172

K

Kalil, Peter—"Additives in Lubricants," Oct. 26, p. 170
Karger, Delmar W.—"How to Sell Engineering Proposals," Jan. 19, p. 118
Karger, D. W. and R. G. Murdick
"Technical Proposals for Control Projects," Feb. 16, p. 120
"Engineering on Research," March 16, p. 130
Karpus, John—"Pressure Regulators," April 13, p. 145
Kasper, L.
"Attaching Coil Spring," Aug. 31, p. 113
"Flat Springs," Nov. 9, p. 192
Kavanaugh, Richard J. and Edwin Elmer—"Timing Motors," *Electric Motor Book*, p. 138
Kenyon, V. L., T. H. Nash, and J. N. Macduff—"Critical Speeds of Coupled Machines," Aug. 17, p. 143
Kilby, J. S.—"Packaging Semiconductor Networks," July 20, p. 174
King, Ray H.—"Self-Sealing Couplings," March 16, p. 146
Kinsman, F. W.—"Pivot Thrust Bearings," Feb. 2, p. 129
Knuepfer, Walter J.—"Control-Panel Design," Sept. 28, p. 137
Kohl, G. A. and E. A. Baniak—"Fatigue Life of Ball Bearings," June 8, p. 190
Korkut, M. Deha—"Pin-Joint Design," Sept. 28, p. 163
Krotz, Alvin S.—"Elastomeric Torsion Springs," Feb. 16, p. 130
Kuchler, Theodore C. and Ward Pearson—"Clearance Seals," *Seals Book*, p. 20

L

Labee, Charles J.—"Rectangular Pressure Vessels," May 25, p. 151
Lamkey, F. R.—"Ac Integral-Horsepower Motors," *Electric Motor Book*, p. 77
Landers, Richard R.—"Reliability Audits," March 2, p. 76
Larson, Gustav A. and Robert E. Ruckstahl—"Tolerance Standards," Nov. 23, p. 117
Larson, Louis J.—"Stress Relieving of Steel Weldments," Sept. 14, p. 179
Leird, E. E. and R. C. Froehlich
"Precision Snap-Action Switches,
Part 1, March 30, p. 116
Part 2, April 13, p. 165

Lennox, George C.
"The Engineering Department's Personality," June 8, p. 134
"Engineering and Sales," Aug. 17, p. 124
Leslie, Richard L.—"Petroleum-Base Hydraulic Fluids," August 3, p. 114
Levine, Walter E. and Edwin A. Harris—"Audible Signals," Nov. 9, p. 166
Lipstein, N. J.—"Fan Performance Indicators," Aug. 31, p. 118
Lismer, R. E.—"Metals at Low Temperatures," March 16, p. 182
Lloyd, T. C.—"Enclosures and Mounting Methods," *Electric Motor Book*, p. 46
Long, Melvin E.—"Push-Pull Controls," May 11, p. 178
Lynch, J. P., C. F. DeVarney, and C. J. Connors, "Copper-Alloy Extrusions," Sept. 28, p. 158

M

Macduff, N. J., V. L. Kenyon, and T. H. Nash—"Critical Speeds of Coupled Machines," Aug. 17, p. 143
Mace, Jack R.—"Design of Thermoplastic Bearings," *Bearings Book*, p. 125
Main, M. M. and E. H. Stubenrauch—"Simple Compression Packings," *Seals Book*, p. 51
Manson, S. S.
"Thermal Stresses,
Part 1: Basic Suitability of Materials," Nov. 9, p. 186
Part 2: Comparative Suitability of Materials," Nov. 23, p. 165
Part 3: External Factors in Design," Dec. 7, p. 160
Part 4: Stress and Strains," Dec. 21, p. 141
Margolin, Lawrence L.—"Variable-Section Beams," March 16, p. 173
Martin, Louis D.—"Powder-Metal Gears," Nov. 9, p. 200
Marvin, Philip
"Pricing New Products," July 20, p. 120
"Why New Products Fail," Nov. 23, p. 108
Matthews, Robert W.—"Instrument Motors," *Electric Motor Book*, p. 133
McCray, C. R.—"Radial Positive-Contact Seals," *Seals Book*, p. 9
McGeary, Thomas C., Roland J. Westerholm, Harry A. Huff, and Robert L. Wolff—"Flame-Sprayed Coatings," Aug. 31, p. 82
McGuire, H. G. and T. L. Stoddard—"Information Presentation Systems," Jan. 19, p. 166
Mendel, Jerome—"Sheet-Metal Channels," Nov. 23, p. 169
Menton, Arthur F.—"Concentric-Shell Structures," June 22, p. 168
Moon, Clyde H.—"Designing Cam Profiles," April 13, p. 179
Muller, Hugh H. and George H. Fox Jr.—"Chemically Milled Structures," April 27, p. 126
Murdick, Robert G.
"From Engineer to Manager," March 30, p. 98
"Managerial Planning," April 13, p. 136
"Using Outside R & D," May 11, p. 162
"Engineering and Research Reports," Aug. 31, p. 70
"Engineering Proposals," Sept. 28, p. 116
"Engineering Relationships," Dec. 7, p. 170
Murdick, R. G. and D. W. Karger
"Technical Proposals for Contract Projects," Feb. 16, p. 120
"Engineering or Research," March 16, p. 130
Murphy, R. Gordon and Jacob H. Ruiter Jr.
"Basic Electronic Controls,
Part 1: Transducers and What They Measure," Nov. 23, p. 139
Part 2: Indicators, Recorders, and Controllers," Dec. 7, p. 171
Musser, C. W.—"Elastic-Body Mechanics," April 13, p. 150
Myers, Peter B.—"Microsystem Electronics," Aug. 17, p. 178

N

Nash, T. H., V. L. Kenyon, and J. N. Macduff—"Critical Speeds of Coupled Machines," Aug. 17, p. 143
Neklutin, C. N.—"Springs for Cam Followers," Dec. 7, p. 195
Nelson, Woodrow D.
"Spiroid Gearing,
Part 1: Basic Design Practices," Feb. 16, p. 136
Part 2: Durability, Strength, and Efficiency," March 2, p. 93
Part 3: Materials, Mounting Details, Lubrication," March 16, p. 165
Newman, Arthur S. Jr. and J. Ronald Wickey
"AC Motor Control,
Part 2: Across-the-Line Starting," Jan. 5, p. 134
Part 3: Reduced-Voltage Starting," Jan. 19, p. 137
Part 4: Starting Multispeed Motors," Feb. 2, p. 115
Part 5: Wound-Rotor Motors," Feb. 16, p. 152
Part 6: Synchronous Motors," March 2, p. 108
Nolt, I. G. and E. M. Smoley—"Gasket Loads," Sept. 28, p. 128
Noren, Oscar and Paul R. Shepler—"Split-Ring Seals," *Seals Book*, p. 24
Norris, H. S.—"Cold Heading of Plastics," Oct. 12, p. 169
Nunlist, Erwin J. and Alex Primak—"Critical Speeds of Vertically Suspended Shafts," Part 1: Lateral Vibration," Dec. 21, p. 104

O

O'Boyle, Dennis—"Surface Coatings for Beryllium Parts," Dec. 21, p. 147
Oetzel, J. George—"Molded and Woven Friction Materials," Aug. 3, p. 128
Orthwein, William C.—"Natural Frequency of Annular Plates," March 2, p. 124

P

Parks, James A.—"Introduction," *Seals Book*, p. 4
Parry, F. W.—"Natural Frequencies of Multiple-Mass Systems," April 27, p. 121
Pearson, Ward and Theodore C. Kuchler—"Clearance Seals," *Seals Book*, p. 20
Pearson, Ward and Ernest Taschenberg—"Circumferential Seals," *Seals Book*, p. 48
Peaslee, R. L.—"High-Temperature Brazing Alloys," Sept. 14, p. 160
Penny, James—"Motor Bearings and Lubrication," *Electric Motor Book*, p. 42
Perry, C. C.—"Least-Squares Lines," June 8, p. 177
Pfrank, J. F. and C. O. Sundberg—"New Roller-Chain Horsepower Ratings," July 6, p. 126
Phillips, D. R.—"Tees in Bending," March 30, p. 143
Phillips, John J. and John F. Taplin—"Diaphragms," *Seals Book*, p. 77
Pillsbury, Ross D.—"Plastic Piston Rings," Sept. 28, p. 147
Polentz, Lloyd M.—"The Professional-Engineer Exam," Feb. 2, p. 90
Primak, Alex and Erwin J. Nunlist—"Critical Speeds of Vertically Suspended Shafts, Part 1: Lateral Vibration," Dec. 21, p. 104
Pringle, O. A.—"Loosening of Bolted Joints," Feb. 2, p. 135
Procaccino, R. J.
"Matching Servovalve and Load," July 6, p. 148
"Servovalves for Force Control," Oct. 12, p. 172

R

Rabins, M. J. and R. J. Harker—"Molded Friction Materials," Jan. 5, p. 156
Raudsepp, Eugene
"How To Sell Ideas," June 22, p. 128
"How Much Freedom for Engineers," Nov. 9, p. 150
"Engineering or Management," Dec. 21, p. 94
Riel, Frank J.—"Adhesive Bonding," Feb. 16, p. 170
Rippel, Harry C.—"Design Analysis," *Bearings Book*, p. 84
Risk, T. H., J. R. Forrester, Jr., and R. P. Schmuckal—"Thermoplastics," Oct. 12, p. 207
Rogers, Harry C.—"Hydrogen Embrittlement," Dec. 7, p. 202
Roller, Elmer A. and Raleigh C. Hughes—"Torque Motors," *Electric Motor Book*, p. 129
Rolsma, B.—"Electric Heating Elements," March 30, p. 146
Rose, Stanley E.—"Five-Bar Loop Synthesis," Oct. 12, p. 189
Rowland, Dan R.—"Ball-Bearing Splines," July 20, p. 142
Rubin, A. E. and B. Saelman—"Designing Minimum-Section Columns," Oct. 26, p. 167
Rubin, J. C.—"Dimensionless Assembly Drawings," Oct. 12, p. 202
Ruckstahl, Robert E. and Gustav A. Larson—"Tolerance Standards," Nov. 23, p. 117
Ruiter, Jacob H. Jr., and R. Gordon Murphy
"Basic Electronic Controls,
Part 1: Transducers and What They Measure," Nov. 23, p. 139
Part 2: Indicators, Recorders, and Controllers," Dec. 7, p. 171
Rumbarger, John H.—"Clearance in Rolling Bearings," June 8, p. 145

S

Sachs, Bruno—"Dynamic Performance of Hydraulic Cylinders," Feb. 16, p. 161
Saelman, B. and A. E. Rubin—"Designing Minimum-Section Columns," Oct. 26, p. 167
Schmuckal, R. P., J. R. Forrester, Jr., and T. H. Risk—"Thermoplastics," Oct. 12, p. 207
Schreiber, William F.—"Definite and Special-Purpose Motors—Special-Purpose Motors," *Electric Motor Book*, p. 125
Schulte, W. C., H. N. Cummings, and F. B. Stulen
"Preventing Fatigue Failures,
Part 1: Basic Factors," April 27, p. 116
Part 2: Geometric Stress Concentration," May 11, p. 191
Part 3: Heat Treatment and Surface Hardening," May 25, p.146
Part 4: Surface Treatment and Environment," June 8, p. 165
Part 5: Calculating Fatigue Strength," June 22, p. 159
Part 6: Biaxial Fatigue Stresses," July 6, p. 154
Schwartz, Joseph L., and Donald C. Thomson—"Noise Conversion Nomogram," Aug. 31, p. 115
Sebok, A. L. and L. [illegible]ston—"Universal Motors and Motor Parts," *Electric Motor Book*, p. 68
Seminara, Joseph L.—"Indicator Lights," Oct. 26, p. 160
Sharp, Harold S.—"Technical Literature," April 27, p. 113
Shepler, Paul R. and Oscar Noren—"Split-Ring Seals," *Seals Book*, p. 24
Sherman, L. S.—"Induction Motors," *Electric Motor Book*, p. 6
Simonton, D. P.—"Purchased-Parts Drawings," Oct. 26, p. 132
Smith, Edward A.—"Felt Radial Seals," *Seals Book*, p. 6
Smith, Frank H. and Donald J. Buchman—"Hole-Position Tolerances," Jan. 5, p. 153
Smith, Hans W.—"Radii of Gyration," Aug. 17, p. 173
Smith, J. N.—"Molded Packings—Lip Type," *Seals Book*, p. 58
Smith, Matthew S.—"Shear and Bending in Free-Beam Structures," Jan. 19, p. 127
Smith, Richard J.—"Shaft Materials," Nov. 9, p. 196
Smoley, Earl M.—"Nonmetallic Gaskets—Joint and Gasket Design," *Seals Book*, p. 83
Smoley, Earl M. and E. C. Frazier—"Nonmetallic Gaskets—Materials," *Seals Book*, p. 90
Smoley, E. M. and I. G. Nolt—"Gasket Loads," Sept. 28, p. 128
Spencer, Lester F.
"Surface Hardening of Steels,
Part 1: Hardening Methods," Jan. 19, p. 148
Part 2: Material Selection," Feb. 2, p. 110
"Chemical Cleaning of Metal Parts," July 20, p. 134
"Mechanical Finishes," Aug. 17, p. 164
Spotts, M. F.—"Press-Fitted Shafts," June 22, p. 151
Stern, Daniel—"Zing and Snap," Aug. 31, p. 112
Stevens, Justus B.—"Axial Mechanical Seals—Metal-Bellows Type," *Seals Book*, p. 44
Stock, Arthur J.—"Lubricants—Solid and Dry-Film Lubricants," *Bearings Book*, p. 27
Stoddard, T. L. and H. G. McGuire—"Information Presentation Systems," Jan. 19, p. 166
Stone, E. O.—"Electroluminescent Lamps," Nov. 9, p. 208
Strasser, Federico
"Alignment of Stamped Assemblies," March 30, p. 114
"Dowel Embossings," Sept. 28, p. 135
Stubenrauch, E. H. and M. M. Main—"Simple Compression Packings," *Seals Book*, p. 51
Stulen, F. B., H. N. Cummings, and W. C. Schulte
"Preventing Fatigue Failures,
Part 1: Basic Factors," April 27, p. 116
Part 2: Geometric Stress Concentrations," May 11, p. 191
Part 3: Heat Treatment and Surface Hardening," May 25, p. 146
Part 4: Surface Treatment and Environment," June 8, p. 165
Part 5: Calculating Fatigue Strength," June 22, p. 159
Part 6: Biaxial Fatigue Stresses," July 6, p. 154.
Sumpter, Clayton—"Beams with Nonuniform Stiffness," Nov. 9, p. 203
Sundberg, C. O. and J. F. Pfrank—"New Roller-Chain Horsepower Ratings," July 6, p. 126

T

Tankus, Harry—"Axial Mechanical Seals—General Types," *Seals Book*, p.32
Taplin, John F. and John J. Phillips—"Diaphragms," *Seals Book*, p. 77
Taschenberg, Ernest and Ward Pearson—"Circumferential Seals," *Seals Book*, p. 48

SUBJECT INDEX

Editorial material in this section is classified according to the following system:

1	2	3	4	5
AC Motor Control, Part 2: Across-the-Line Starting	Wickey	1/5,	134	(7.0)

1. Title.
2. Author's last name (see Author Index for complete name). Departments in regular issues are denoted by the following code:
   - News ..... Engineering News
   - Scan ..... Scanning the Field for Ideas
   - DIA ..... Design in Action
3. Date of issue. MACHINE DESIGN *Books* are denoted by the following code:
   - S ..... *Seals Book* (Jan. 19)
   - B ..... *Bearings Book* (March 30)
   - F ..... *Ferrous Metals Book* (Aug. 3)
   - E ..... *Electric Motor Book* (Dec. 11)
4. Page number.
5. Number of pages in article or editorial item.

Electrical and Electronic Drives, Controls and Systems

ELECTRIC MOTORS

AC Motor Control, Part 2: Across-the-Line Starting	Wickey	1/5,	134	(7.0)
AC Motor Control, Part 4: Starting Multispeed Motors	Wickey	2/2,	115	(7.0)
AC Motor Controls, Part 5: Wound-Rotor Motors	Wickey	2/16,	152	(8.0)
AC Motor Control, Part 6: Characteristics and Control of Synchronous Motors	Wickey	3/2,	108	(6.0)
Fractional-Horsepower Motors, Part 1: Electrical Considerations	Campbell	5/11,	196	(9.0)
Fractional-Horsepower Motors, Part 2: Mechanical Considerations	Campbell	5/25,	123	(9.0)
DC Motor Control, Part 1: Motor Types and Characteristics	Wickey	7/20,	154	(6.0)
Induction Motors	Sherman	E,	6	(9.0)
Synchronous Motors	Homitch	E,	15	(7.0)
Direct-Current Motors	Wickey	E,	22	(4.0)
Motor Bearings and Lubrication	Penney	E,	42	(3.8)
Enclosures and Mounting Methods	Lloyd	E,	46	(7.7)
Fractional-Horsepower Motors	Campbell	E,	54	(14.0)
Universal Motors and Motor Parts	Sebok	E,	68	(8.6)
AC Integral-Horsepower Motors	Lamkey	E,	77	(23.0)
DC Integral-Horsepower Motors	Davis	E,	100	(5.0)
Multispeed Motors	Gregory	E,	105	(3.0)
Fractional-Horsepower Gearmotors	Tennerstedt	E,	108	(4.0)
Integral-Horsepower Gearmotors	Burnett	E,	112	(6.7)
Definite-Purpose Motors	Axthelm	E,	119	(5.7)
Special-Purpose Motors	Schreiber	E,	125	(4.0)
Torque Motors	Roller	E,	129	(4.0)
Instrument Motors	Matthews	E,	133	(5.0)
Timing Motors	Kavanaugh	E,	138	(10.0)
Oil Drawer for Easy Access for Adding Lubricant	Scan	3/30,	104	(0.5)
Electromagnetic Ratchet Provides Low-Speed Output Drive	Scan	6/22,	136	(0.6)
Stop and Drive Provided Electromagnetically in DC Stepping Motor	Scan	9/14,	151	(0.5)
Stator Laminations Permit Winding of a Motor Stator from the Outside	Scan	9/28,	121	(1.0)
Wires Increase Turbulence for Cooling of Railroad Traction Motor	Scan	9/28,	122	(0.5)
Reaction Controls Tension in Electric Motor V-Belt	Scan	10/26,	126	(1.0)
Tapered Motor Rotor Moves Axially Built-In Brake	Scan	12/7,	143	(0.5)
Camera Unwraps Cylinder	DIA	11/9,	180	(1.0)
Diesel-Electric Lift Truck	DIA	11/23,	134	(2.0)

Armed Forces List Needed Inventions.... News 11/23, 10 (0.5)

DRAFTING, DIMENSIONING, TOLERANCES

Eli Whitney's Uniformity System ..... Adler 1/5, 108 (4.0)
Hole-Position Tolerances ..... Buchman 1/5, 153 (3.0)
Statistical Dimensioning Program ..... Brooks 9/14, 140 (6.0)
Dimensionless Assembly Drawings..... Rubin 10/12, 202 (1.0)
Purchased-Parts Drawings ..... Simonton 10/26, 132 (6.0)
Tolerance Standards ..... Ruckstahl 11/23, 117 (5.0)
NBS Attacks Measurement Barriers .... News 1/19, 12 (1.0)
Metric Controversy Continues ..... News 2/2, 14 (1.0)
Electronics Takes Up Drafting ..... News 2/16, 30 (1.0)
Automatic Draftsman Thrives on Routine News 7/6, 28 (1.0)
Chalk-Up Drafting as a Blackboard Technique ..... News 10/26, 8 (0.5)

LABORATORY and TESTING

The Optical Wedge ..... Judd /16, 172 (1.0)
Throwaway Prototypes ..... News 1/5 30 (2.0)
Rehearsals for Re-entry ..... News 2/2, 12 (1.0)
Quick Check for the Continental ..... News 2/2, 32 (0.5)
Notty-New Naval Prototype ..... News 2/16, 34 (0.5)
For Vehicles: Made-to-Order Miseries... News 6/22, 14 (1.3)
3400-mph Water Bullets Provide Tip-Off to Turbine Blade Erosion ..... News 7/20, 34 (0.7)
Space Simulator Furnishes "Real" Sunlight ..... News 8/3, 10 (0.5)
Pulsed X-Rays Picture Boxed-In Troubles News 9/28, 37 (0.6)
Mach 400 Shock Tube Shows All the Action ..... News 10/26, 14 (0.6)
Sweep Camera Pinpoints Printed-Circuit Hot Spots ..... News 12/21, 30 (1.0)
Speedometer for Space ..... News 12/21, 32 (0.6)
Gentle Stops for Jets in Trouble ..... News 12/21, 34 (1.0)
One-Sided Developer ..... DIA 2/16, 150 (1.0)
Satellite Centrifuge Tests Space Equipment ..... DIA 3/30, 125 (1.0)

TECHNICAL INFORMATION, STANDARDS, PATENTS

Technical Proposals for Contract Projects Karger 2/16, 120 (6.0)
Keeping Up with Technical Literature... Sharp 4/27, 113 (3.0)
Commercial Success of Patents ..... Gray 6/8, 164 (1.0)
A Guide to Technical Specifications .... Fitzgerald 7/6, 112 (6.0)
Engineering and Research Reports ..... Murdick 8/31, 70 (6.0)
File-Wrapper Estoppel ..... Gray 9/14, 184 (3.0)
Engineering Proposals ..... Murdick 9/28, 116 (5.0)
Double Patenting ..... Gray 11/9 162 (4.0)
Appendix—Seal Standards ..... Staff S, 115 (13.0)
Seals Glossary ..... Staff S, 128 (9.0)
Bearing Standards ..... Staff B, 129 (3.0)
Bearings Glossary ..... Staff B, 132 (5.0)
Instant Information ..... News 7/20, 24 (3.0)
Automatic Library Searches in Seconds.. News 8/3, 8 (0.6)

PERSONAL, PROFESSIONAL

What To Expect in the Professional-Engineer Exam ..... Polentz 2/2, 90 (5.7)
How To Sell Ideas ..... Raudsepp 6/22, 128 (5.0)
Accentuate the Positive in Engineering Relationships ..... Murdick 12/7, 170 (1.0)
